25X1	4. On 11 June, seven boxcars with soldiers were dispatched from Justerbog-Altes Lager to Finsterwalde.		
25X1	5. Military shipments <span style="border: 1px solid black; display: inline-block; width: 150px; height: 1.2em; vertical-align: middle;"></span> on 13 June included: an empty train of 12 boxcars and 11 flatcars, 547 tons, <span style="border: 1px solid black; display: inline-block; width: 150px; height: 1.2em; vertical-align: middle;"></span> from Frankfurt/Oder to Altengrabow; and a train of 1 boxcar, 1 gondola car and 13 flatcars from Kirchmoeser to Wildpark. An official order stated that the train from Kirchmoeser to Wildpark was to be operated during the night only.		
25X1	6. <span style="border: 1px solid black; display: inline-block; width: 50px; height: 1.2em; vertical-align: middle;"></span> Comment. The assembling of transitworthy railroad cars at Neuruppin indicates that discharged soldiers were to be repatriated to the USSR. No information could be gathered whether the train actually left Neuruppin before the general riot in East Germany. Similar indications on a limited exchange of personnel have been observed in other areas of East Germany since March 1953. All other cars definitely were assembled for transportation of troops to or from field exercises. The departure of troops from Ballgow-Doberitz, Justerbog, Neuruppin, Forst Zinna and Werneuchen on the dates mentioned in paragraph 1 was previously reported.		
25X1	7. <span style="border: 1px solid black; display: inline-block; width: 50px; height: 1.2em; vertical-align: middle;"></span> Comment. <span style="border: 1px solid black; display: inline-block; width: 100px; height: 1.2em; vertical-align: middle;"></span> the HQ of the Third GdA Mecz Army. As, on and after mid-May 1953, KVP units were stationed at the barracks installation in Spremberg, which allegedly was completely vacated by Soviet troops, the transport of 450 Soviet soldiers from Spremberg in early June 1953 cannot be explained.		
25X1	8. <span style="border: 1px solid black; display: inline-block; width: 50px; height: 1.2em; vertical-align: middle;"></span> Comment. On 5 June 1953, two troop trains from Justerbog to Lieberose were reported <span style="border: 1px solid black; display: inline-block; width: 150px; height: 1.2em; vertical-align: middle;"></span> Although the loading of the troop trains to and from Lieberose differs, it is believed that the units returned to Justerbog on 7 and 9 June 1953. The present report also does not furnish information on these units.		
25X1	9. <span style="border: 1px solid black; display: inline-block; width: 50px; height: 1.2em; vertical-align: middle;"></span> Comment. Probably a shipment of the air force.
